

Test Cases

Test Case ID	Input Scenario	Expected Category	Expected Priority	Result
TC-01	My internet connection drops every 5 minutes and the router light is red.	Network	High	Pass
TC-02	I can't open the billing software, it gives me a missing DLL error on startup.	Software	Medium	Pass
TC-03	Can someone tell me what the new company holiday schedule is?	Other	Low	Pass
TC-04	The finance dashboard is not loading the latest quarterly revenue reports.	Software	Medium	Pass
TC-04	I need to upgrade my premium subscription plan for next month, how do I do that?	Other	Low	Pass
TC-05	Our office Wi-Fi speed is incredibly slow today, I can't even load a basic webpage.	Network	High	Pass
TC-06	I forgot my password to the sales portal and need someone to help me reset it.	Software	Low	Pass
TC-07	My wifi router is not turning on and I can't connect to the internet.	Network	High	Pass
TC-08	The office ethernet port is completely unresponsive, no lights blinking on my workstation.	Network	High	Pass

Test Case ID	Input Scenario	Expected Category	Expected Priority	Result
TC-09	My VPN connection keeps timing out whenever I try to access the internal server.	Network	High	Pass
TC-10	The wireless access point in the conference room is broadcasting a signal but providing no internet.	Network	High	Pass

Functional Testing

- Test complete ticket workflow from voice input to notification.
- Verify RBAC for users, agents, and admins.
- Automate frontend-backend integration testing using Cypress/Selenium.

Ticket Processing (AI/NLP)

- Compare Whisper, Llama 3, and Phi-3 models for accuracy and performance.
- Test transcription accuracy with noisy audio.
- Validate AI follow-up questions for missing information.

Database Storage

- Test performance with 1M+ records.
- Verify SQLite to PostgreSQL/MySQL migration.
- Test backup and disaster recovery processes.

Dashboard TestingPerformance Testing

- Simulate 1,000+ concurrent audio uploads.
- Monitor CPU/GPU memory usage under load.
- Test CDN performance for faster asset delivery.

Error Handling Testing

- Test upload failures due to network interruptions.
- Verify fallback to cloud APIs when local AI fails.
- Ensure errors are logged securely without exposing details to users.
